

# Elliot N. Rozen

320 W 96th St Apt 1F, New York NY, 10025  
(703) 403-6270 • [elliandrozen@gmail.com](mailto:elliandrozen@gmail.com)

## Education

### **Columbia University Mailman School of Public Health**

Master of Public Health, Epidemiology - Certificate in Infectious Disease Epidemiology **May 2019**  
*New York, New York*

### **Lafayette College**

Bachelor of Science, Neuroscience

**December 2011**

*Easton, Pennsylvania*

## Professional Healthcare Experience

### **Cochrane Russia**

*Epidemiology Practicum*

**June-July 2018**

*Kazan, Russia*

- Analyzed medication usage and consumption patterns following the diagnosis of various cardiovascular conditions in a Russian healthcare setting, and compared results to recommendations from systematic literature reviews
- Worked with Russian healthcare administrators on developing improvements to locally developed Electronic Medical Record (EMR) systems
- Contributed to the Priority Cochrane Translation project; helped translate and record Cochrane systematic review results into Russian

### **Medstar Health Research Institute**

*Clinical Research Coordinator (May 2016 – August 2017)*

**June 2013-August 2017**

*Washington, DC*

- Coordinated commercial, grant supported, and investigator-initiated clinical research protocol implementation for Phase II-IV trials across a variety of medical specialties and settings. Managed all aspects of trial implementation from contract approval to study close-out
- Prepared and delivered IRB submissions and renewals. Handled all communication, queries, and audits from applicable regulatory bodies
- Screened, recruited, enrolled, and followed up with patients for various trials under ICH/GCP guidelines, including patients from vulnerable populations such as infants/young children, IV drug users, and patients with neurological injuries
- Exceeded sponsor recruitment goals on several multicenter trials, and was recognized by sponsors on multiple trials as a national leader in trial recruitment.
- Developed trial specific source documents and organizational Standard Operating Procedures (SOPs)
- Provided in-service trial protocol training to hospital and outpatient physicians and staff through individual instruction and group training presentations
- Responsible for investigational drug accountability and quality assurance

*Clinical Research Associate (June 2013 – May 2016)*

- Long term outcome monitoring of Percutaneous Coronary Intervention (PCI) and Transcatheter Aortic Valve Replacement (TAVR) patients for single center Interventional Cardiology registries
- Screened all 30-50 daily Catheterization Lab Cardiology patients for participation in research registries as well as a variety of internally and externally supported quality improvement registries
- Contacted participants at predetermined intervals and obtained medical history focusing on qualitative symptom assessment, medication compliance and adverse events, and clinical endpoints
- Assisted Interventional Cardiology Fellows and Physicians in data collection, aggregation, and analysis for various research projects
- Collaborated in literature reviews, and helped write manuscripts for publication

### **Bayer Healthcare Pharmaceuticals**

*Regulatory Affairs Intern*

**Summer 2010**

*Wayne, NJ*

- Assisted directors in reviewing promotional materials for scientific accuracy and ensuring they complied with federal regulations
- Analyzed FDA warning letters to competitors and summarized content for directors

## **Skills**

**Certifications:** Society of Clinical Research Associates (SOCRA) - Certified Clinical Research Professional, Regulatory Affairs Professionals Society - Regulatory Affairs Certificate: Medical Devices and Regulatory Affairs Certificate: Pharmaceuticals
